

Prashant Kumar

📍 GreaterNoida, IN ✉ E-Mail ☎ +91-9453026546 🔗 Portfolio in [Linkedin](#) 🐙 [GitHub](#)

Professional Summary

Cybersecurity undergraduate with hands-on experience in network security, web and mobile application security, and vulnerability assessment. Proficient in OWASP Top 10, Wireshark, Nmap, Burp Suite, and Linux, with practical exposure to DevSecOps fundamentals and secure application development. Actively building security tools and projects with a strong interest in SOC and cybersecurity analyst roles.

Skills

Technical Skills

Noida, U.P., India

- **Cybersecurity:** Network Security, Web App Security, OWASP Top 10, OWASP Mobile Top 10
- **Security Tools:** Wireshark, Nmap, Burp Suite, Metasploit
- **DevSecOps & Cloud:** Secure CI/CD, Security Automation, AWS IAM (Basics)
- **Networking & OS:** TCP/IP, DNS, Linux, Firewalls
- **Programming:** Python, Java, C++, SQL, Bash

Experience

Cybersecurity Projects & Hands-on Practice

Dec 2023 - Present

Self-Driven | Academic & Practical Work

2024 – Present

- Conducted hands-on vulnerability assessment through academic and personal cybersecurity projects
- Analyzed web and mobile application vulnerabilities based on OWASP Top 10 and OWASP Mobile Top 10
- Performed network traffic analysis using Wireshark and Nmap
- Worked with Linux systems, shell scripting, and security tools for practical learning
- Applied DevSecOps fundamentals, including secure CI/CD awareness and security automation concepts
- Documented security findings and explained technical concepts clearly to peers

Projects

Mobile App Security Scanning Application (OWASP top10) [Repo](#) [↗](#)

Aug 2025

- Performed static security analysis on Android and iOS applications to identify OWASP Mobile Top 10 vulnerabilities
- Detected insecure data storage, weak cryptography, and improper platform usage
- Generated vulnerability assessment reports to support secure application development

VeriffEye – Browser Security Extension [Repo](#) [↗](#)

- Developed a browser extension to monitor webpages in real time for phishing indicators and malicious content
- Implemented keyword-based detection for credibility risks and suspicious behavior
- Enhanced user awareness of web security threats

Online Port Scanner [Repo](#) [↗](#)

- Built a network scanning tool to identify open ports, running services, and potential security misconfigurations
- Supported basic vulnerability assessment and service enumeration

Steganography Application for Secure Data Concealment [Repo](#) [↗](#)

- Implemented secure data hiding techniques using image and audio steganography
- Added optional encryption to improve data confidentiality

RapidScan v1.2 – Web Vulnerability Scanner [Repo](#) [↗](#)

- Used an automated Python-based framework to run multiple web security scanning tools
- Assisted in identifying common web vulnerabilities and reducing manual scanning effort

Education

Bennett University, Greater Noida

Sept 2023- Aug 2027

Bachelor of Technology (B.Tech) – Computer Science

Expected Graduation: 2027

Certification

- Cyber Job Simulation – Deloitte (2024)
- Foundations of Cybersecurity – Coursera (Google)
- Introduction to Cybersecurity Tools & Cyberattacks – Coursera
- Performance Testing Professional – Infosys Springboard

Hackathons

- Smart India Hackathon | Hackaccino
